

HULL WORKS

Millwork ~ Homes ~ Restoration

Hull Tour: Alys Beach

Brent takes you on a tour through **Alys Beach, Florida**. Designed and inspired by historic colonial architecture of the tropics, this town is an example of how cities and towns should be designed and built. There are unifying design ideals and beautiful construction methods that are captivating and magical.

Featured Project: Contemporary Classic

Check out this month's featured project: **Contemporary Classic**. This whole-house renovation in Fort Worth took a non-descript 1970s contemporary building to new heights with a dramatic mission revival entry, barrel tile clay, roof and stucco exterior. Hull Homes designed and built sculptural interiors which are clean and simple. Big metal doors open to a private terrace and pool, overlooking a pool pavilion.
